

# STEPHENSON CONSTRUCTION SECTOR PROFILE MEDICAL

[www.stephenson-group.co.uk](http://www.stephenson-group.co.uk)

**Stephenson** was formed in 1962 and over the years has developed a reputation within the industry for integrity, commitment and performance meeting with Contractor's and client's requirements.

The **Stephenson Group** now encompasses Reinforced Concrete Frames, Shell & Core and Development Divisions along with Specialist Contracting, Plant Hire and Sales. We are actively involved in development and construction partnering packages with key clients.

**Stephenson's experience** extends to every reinforced concrete frame and RC Hybrid frame solution available in the market today.

Along with the development and use of formwork and falsework systems, Stephenson continue to research emerging reinforced concrete frame concepts, and the company is actively involved through 'CONSTRUCT' in the promotion of economic and fast track design and construction techniques.

Stephenson RC Frames are currently active throughout the UK in the following **market sectors**;

- Hotels
- Student Accommodation
- Medical
- Education
- Residential
- Build to Rent
- Private Residential
- Commercial

Our **areas of operation** encompasses all the UK, with the Head Office in Horsham, West Sussex and regional offices in Wales & Scotland.

# Our Services

## Design

- Full Structural Design
- Design Development
- Reinforced Detailing

## Substructure

- Piling
- Excavation
- Temporary Works
- Reinforcement
- Formwork
- Concrete Drainage
- External Works

## Construction

- General Contracting
- Shell & Core
- Development and Project
- Management Services

## Construction Management

- Management Services

## Superstructure

- Enabling Works
- Flasework & Formwork
- Hybrid Solutions
- In-situ Concrete Frames
- Scaffolding
- Screeding
- Precast Elements
- Structural Steel

## Stephenson Developments

- Residential
- Student
- Retirement
- Commercial
- Private Rental Schemes

# Current and Selection of Completed Projects

## Baird & Anchor Hospital, Edinburgh

Client	NHS Graham
Main Contractor	Grahams Construction
Architect	NORR Consultants Ltd
Engineer	Mott McDonalds

Baird - Capping beam, basement slabs, retaining and liner wall and superstructure over 4 suspended levels.

Anchor - Ground floor slab, retaining wall and 1 suspended podium slab.

Both - CDP waterproofing by SSC as well as 4 tower cranes and mobile cranes by SSC.

## Prince & Princess of Wales, Glasgow

Client	Prince & Princess of Wales Hospice
Main Contractor	Balfour Beatty
Architect	Ryder Architecture
Engineer	Woolgar Hunter

A 2 storey reinforced concrete frame and groundworks. This project received a Highly Commended Award in 2019 from the Scottish Design Awards.

## The Royal Bournemouth Hospital

Client	Dorset University Hospitals NHS Foundation Trust
Main Contractor	IHP
Architect	IBI Group (UK) Ltd
Engineer	Curtains Consulting Ltd

Part of the BEACH Building's construction to provide a new maternity, children's, critical care unit and enhanced emergency department, Stephenson's scope of works include the groundworks and reinforced concrete frame.

# Current and Selection of Completed Projects

## RUHT CSDP Phase 2, Treliske Hospital

Client	Royal Cornwall Hospital NHS Trust
Main Contractor	BAM Construction
Architect	Stride Treglown
Engineer	Arup

Ground bearing slab and walls to form a basement followed by 3 suspended floors above.

## New Research Facility Building, Sequani, Lebury

Client	Sequani Ltd
Main Contractor	Spellar Metcalfe Ltd
Architect	Intelligence Buildings Infrastructure
Engineer	Michael Hadi Associates Ltd

This project includes the erection of a brand new 3 storey, 2,104m<sup>2</sup>, Class B1 employment building to be used for Biomedical Research.

## Southmead Hospital, Bristol

Client	North Bristol NHS Trust
Main Contractor	Cowlin Construction
Architect	Kendall Kingschott Architects
Engineer	

A new 4 storey reinforced concrete frame extension to the Bristol Southmead Hospital learning and research building. This project also included the expansion of the hospital's library and reconfiguration of parts of the building.

# Current and Selection of Completed Projects

## Linac Bunker, Southampton General Hospital

Client	NHS
Main Contractor	Interserve
Architect	Intelligence Buildings Infrastructure
Engineer	Arup

Our main scope of works was a bunker consisting of a raft foundation slab split into 3 pours, the largest being 400m<sup>3</sup>. Vertical elements were walls of varying thicknesses from 650mm to 2730mm and a roof slab from 1120mm to 2350mm. Stringent concrete specification meant temperature differential could be no more than 20°C.

## Millfields Trust HQ, Plymouth

Client	Millfields Trust
Main Contractor	Midas
Architect	Form Design Group
Engineer	Airey & Coles

4 storey reinforced concrete frame project funded by Millfields Trust and Plymouth City Council. This project allowed for the generation of 50 new businesses providing 200 new jobs and formed a model for further regeneration in the area.

## Clinical Centre of Excellence, Bath

Client	Circle / Health Properties Management Ltd
Main Contractor	Taylor Woodrow
Architect	Foster & Partners
Engineer	Arup

Reinforced concrete frame of brand new 3 storey hospital located on the edge of a protected green belt just 9 kilometers South-East of Bath.

# Current and Selection of Completed Projects

## Bath Therapies Unit

Client	Royal United Hospital NHS
Main Contractor	Kier Group Ltd
Architect	IBI Group
Engineer	Integral Engineering Design

3 storey reinforced concrete frame for the Royal United Hospitals Rheumatic diseases and therapies unit centre which provides treatment, care and education for patients to recover from episodes of illness or injury, or to manage their long-term conditions.
